MEDICAL.

LATEST NEWS FROM CANADA.—

From the Montreal Gazette, June 13, 1849.

"Our readers will have observed the frequent notices we have given in our columns of the remarkable cures effected from the use of W. STAR'S BALM OF WILD CHERRY in the cure of diseases of the respiratory organs, catarrhal affections, liver complaints, &c."

"Many of the certificates are couched in strong language, and are of course well founded, but the purpose of drawing attention to a quick medicine. Such, however, Wistar's Balm of Wild Cherry is not. We can ourselves vouch for the good effects this Balsam has had on the cure of the nature of those mentioned, when we have had them, and that when every other remedy has been tried and failed."

From the New-York Evening Mirror, March 30, 1849.

"We regard the Wild Cherry tree as one of nature's own physicians, a sort of good Samaritan of the forest, its medicinal properties being far more valuable than the lives of thousands. The Balsam prepared by Dr. Wistar is a pure and perfectly reliable preparation of the real Cherry essence, and it is a remedy by no means 'bad to take.' We speak confidently and strongly in its praise, having had it in many instances, and can assure you that when all other prescriptions had proved of no effect, it was always signs I. BUTTS ON.

"The genuine Wild Cherry is a sure and safe remedy for Indigestion, Dyspepsia, Liver Complaint, Conipation and Diarrhoea, curing after Nature's own method, by Nature's own hand."

"Half a pound of Peppermint, infused in water, will digest five pounds of roast beef in about two hours, out of the stomach."

SCIENTIFIC EVIDENCE.

Baron Liebig, in his celebrated work on Animal Chemistry, says—An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach, and introduced into the stomach, as meat and eggs, will be solubly changed, and digested, just in the same manner as they would be in the human body."

Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New-York, in his "Text Book of Chemistry," page 33, says: "It has been a question whether artificial digestion could be performed—whether it might not be admitted that it may be?"

Price, \$1 per bottle. One bottle will often effect a lasting cure.

Every bottle of the genuine Peppermint bears the written signature of Dr. S. HOUGHTON, M.D. sole proprietor.

Dr. HOUGHTON'S New-Office, 69 Lispenard-st. a few doors from Broadway. Call and get a descriptive sheet gratis.
